

Sandeep Sharma

Software Engineer

Kolkata, India | (+91) 9674417830 | sandeepsharma96744@gmail.com | [LinkedIn](#) | [Portfolio](#)

OBJECTIVE

Java Software Engineer with hands-on experience in fintech, building microservices, RESTful APIs, and full-stack applications. Currently developing financial microservices at StyloPay, with prior experience as a freelance Coding Specialist at Uber and a Java Developer Intern at mthree (formerly Wiley Edge). Skilled in Spring Boot, Java, SQL, and Agile environments, with a focus on clean, scalable, and maintainable solutions.

EXPERIENCE

StyloPay – Kolkata
Software Engineer

Jul 2025 – Present

- Maintain and enhance Wallet & Prefund Management microservices — including API updates, strengthened validations, improved logging with secure data sanitization, and restructured modules with dedicated controllers for cleaner separation of concerns.
- Led the migration of User Onboarding microservices from Java 8 to Java 17 with full code restructuring per code review committee standards, improving performance, code quality, and maintainability.
- Built a wrapper layer over AWS Cognito APIs to handle the complete user authentication flow — covering sign-in, sign-up, and user management across internal portals.
- Managed source control and code reviews using Bitbucket across all microservice repositories.
- Built a comprehensive API documentation portal using Docusaurus covering three products — HashDT, ZOQQ, and HashTag — with a live API testing playground, collection import support, and a Node.js wrapper over Spring Boot APIs.
- Enhanced the internal dashboard to be fully mobile and tablet responsive, improving accessibility across devices. Improved overall UI and implemented key updates based on continuous feedback from the CRM team.

Uber (via eTeams) – Remote
Freelance Coding Specialist

Sept 2024 – Jan 2025

- Resolved tickets by implementing minor Java code changes, adding meaningful inline comments, and aligning code structure to improve readability and maintainability.
- Collaborated remotely on task-based assignments, debugging and improving existing codebases to meet project requirements and quality standards.

Mthree (formerly Wiley Edge) – Remote
Java Software Developer Intern

Apr 2024 – Sept 2024

- Completed intensive training in Java development, database management, and software engineering best practices with a focus on clean code principles.
- Built scalable Java-based solutions with RESTful APIs, gaining hands-on experience with Spring Boot, JDBC, SQL, and Git in team-based workflows.

EDUCATION

2019 – 2023	Bachelors in Computer Science & Engineering	Govt. College of Engineering & Ceramic Technology	9.66 CGPA
2018	ISC	St. Sebastian's School	85.8%
2016	ICSE	St. Sebastian's School	89.66%

PROJECTS

Online Food Ordering System

- Developed a web-based food ordering system with user/restaurant login, menu browsing, order placement, tracking, and an admin panel for menu and order management.
- Implemented RESTful APIs using Spring Boot and MySQL to manage user authentication, menu data, and order processing, ensuring efficient data flow between the frontend and backend.

Taskbook Web-App

- Built a responsive task management application supporting task creation, editing, deletion, and completion tracking, with Google OAuth integration for secure, seamless user authentication.
- Leveraged Firebase for real-time data storage and synchronization, and implemented Gmail-based authentication using HTML, CSS, and JavaScript to deliver a smooth, login-friendly user experience.

SKILLS

Languages: Java, SQL, C++, C, JavaScript | **Frameworks & Tools:** Spring Boot, React JS, Node JS, Docusaurus, REST API, JDBC, Firebase, AWS Cognito, API Gateway, Jenkins | **Developer Tools:** Git, GitHub, BitBucket, IntelliJ, Eclipse, VS Code, Postman, Grafana | **IT Constructs:** Microservices, OOPs, Data Structures, DBMS

ADDITIONAL INFO

Certified in InfyTQ (2022) | NPTEL: Programming in C++ (2021), Speaking Effectively (2020), R Programming (2019) | Completed foundational Java & MySQL training at Cognizant.
